

# HIDROGARNE

Specialists in the manufacture of tailormade hydraulic presses

## E SERIES

E SERIES E SERIES E SERIES E SERIES E SERIES

# E SERIES

We have **designed** the E-series hydraulic presses **with two different power ranges, from 50 to 80 tonnes**.

Specifically designed to perform **work involving extraction, threading, straightening, etc.**

E-series hydraulic presses consist of an electro welded structure of 2 stanchions with closed sides.

## OPTIONAL ACCESSORIES:

- Set of punches. Adapter and plate (Ø 10-12-15-17-20-25-30 mm).
- Set of "V" blocks.

These models feature a **mobile bed** which enables the equipment to be positioned at different heights. The equipment is secured by means of two center pins located beneath the bed. The **raising and lowering system** is operated **by means of a manual hoist**. The equipment features a **safety catch** which prevents the bed from falling.

The **cylinder is of the simple effect** type with a **double anti-friction guides**. The equipment returns to its position by means of two springs with anti-breakage protection. It features a threaded spindle to facilitate final adjustments.

### One speed hydraulic hand pump.

The cylinder is activated by means of a manual hydraulic lever pump.

**Supplied with support flat blocks, a gauge with reading in bars**, hydraulic oil and an instructions manual.

**It meets** and satisfies all the essential health and safety requirements in accordance with the **EC standard**.

Model	Power	Maximum pressure	Piston stroke	Screw stroke	Frontal light	Max. vertical light	Bed light	Total front	Total lateral	Total height	Weight
	t	bar	mm	mm	mm	mm	mm	mm	mm	mm	Kg
EA-50	50	500	120	100	770	1.020	165	1.100	450	1.910	235
EA-80	80	500	120	100	850	1.020	205	1.210	800	2.050	330

HIDROGARNE reserves the right to introduce modifications and improvements without previous notice.

Set of punches, adapter and plate.

## WHO WE ARE

**Active in the market since 1987.** A corporate trajectory which began with the supply of machinery exclusively for the Spanish market, we gradually branched out into several different European countries and we are **now exporting** our hydraulic presses **to over 20 countries all over the world**.

We are backed by over **25 years of experience** in innovation, quality and commitment to our customers. Our continuous progress over all these years has led to us becoming **leaders in the manufacture of hydraulic presses**.

**Convinced of the quality** of our hydraulic presses, we have extended our manufacturing guarantee to a period of 2 years.

Our entire range of hydraulic presses is **totally manufactured by HIDROGARNE**.

**We are specialized in making hydraulic presses with the capacities, measurements and technical characteristics adapted to your needs.**

**Made in Spain**
